The proposal of a credit extension, he is convinced would be unsound.

The proposal of a credit extension amounting to \$150,000,000 has been made by Gray Silver of the American Farm Bureau Federation, who is now in Europe with a delegation, gathering material for the loan propaganda on, their return to this country. A big drive is to be made to get the farmers to demand a huge credit extension to Germany for purchase of wheat, the effect of which would be to enhance the price of his product received by the wheat raiser, in the eopinion of the authors of the project.

SAN DIEGO, Nov. 23.—Lieutenant-Commander Herbert O. Roesch, first of three junior commanding officers to be tried by general court-martial as the result of the Point Honda destroyer disaster of September 8. last, was found guilty of nerilgence today. He had been charged with negligence in permitting a vessel of the Navy, the U.S.S. Nicholas, which he commanded, to run on the rocks.

Commander Roesch is the first officer to be convicted by this court since the trial of Lieutenant-Commander Donald T. Hunter, commanding officer of the Delphy and squadron navigator.

[Inters and mothors: Would be said.

"There were 24,000 of them among the 75,000 who died for American." I wonder if Lillard and Feuquay and others in the Senate who saw active service questioned the Jew and Catholic buddies by their side, wondering if they were 100 per cent American.

"I wonder if the heroic charge at Belleau Wood in the salient which marked the turning point. carried out by Jews of the Seventy-seventh Division, recruited on the East Side of New York, was an un-American act?"

LAUDS CATHOLICS

The verdict of the court, which in accord with naval custom was not announced, came as somewhat of a surprise to those who have been observing the series of trials, and it caused much interest because of the possibility that it may be indicative of the attitude of the court in the cases of the two remaining junior commanders, Lieutenant-Commander Walter D. Seed and Lieutenant-Commander Richard H. Booth, who commander Richard H. Booth, who commander K. Lesite Bratton, judge advocate, surprised the court at the beginning of the trial of Commander Walter and Chauncey, respectively.

Lieutenant-Commander Lesite Bratton, judge advocate, surprised the court at the beginning of the trial of Commander Wiltiam H. Toas, commanding officer of the E. P. He based his objection on the ground that the members had formed an opinion regarding the facts to be adduced in evidence, as they had acquitted Capt. Robert Morris on the evidence that will be used in the Toax trial Capt. Morris was commander of Division 33 and was aboard the flagship S. P. Lee, which Toax commanded.

PASTOR SAYS BOOK SHOULD BE GIVTN BOK'S AWARD

[BY A. P. NIGHT WIRE] PHILADELPHIA, Nov. 23.—A uggestion that a copy of the Bible be sent to Edward W. Bok for his prize of \$100,000 for the best plan to preserve world peace was made by Rev. Antonio Sartorio of New York to the Board of Home Missions of the Methodist Episco-pal Church at a meeting here toay.
"The Bible contains the only pos-

sible solution of world discord," the speaker declared. Mr. Sartorio, who is in charge of the work of the board on Long Island, said that teaching the principles of the that teaching the principles of the Bible to his congregation promoted a high sense of loyalty to the United States and inculcated a spirit of international brotherhood. As evidence of the transforming power of religion, a report read at the meeting said that Chief Two-Guns-White-Calf, the Indian whose profile appears on the 5-cent piece, has become a church trustee at Browning, Mont. The report added that his wife was president of the Ladies' Aid Society there and that Quintanilla, right-hand man of the late Pancho Villa, Mexican bandit chief, preaches in a church in California.

Indiana are closing down rapidly, coal operators here state today. Approximately one-third of the 300 mines in Illinois are idle and the majority of the remainder are apperating at only about one-fifth capacity, it was said. This means that about 25,000 men are out of work and that the 50,000 other Illinois coal miners are drawing small pay checks, it was explained.

Loss of business through alleged underselling by nonunion mines in Kentucky and West Virginia is given as the chief reason.

INDIANAPOLIS, Nov. 23.—Closing down of bituminous coal mines is general and is not confined to the union fields, William Green, secretary-treasurer of the United Mine Workers of America, said here today.

Fig growing at Planada is a natural monopoly and for huge profits and safety can be compared with no other fruit. For, while figs are grown in other parts of California, nowhere except this very limited area of a few square miles—the heart of the proven fig belt—of which Planada is almost the exact center, are these properly balanced soil and climatic conditions which assure their commercial success!

Fig growers at Planada are making a net profit of 25 per cent to 40 per cent on a valuation of \$1500 an acre. This is a very conservative estimate. These men are actually refusing \$2000 an acre for their 10 year old Planada Fig Orchards because of the tremendous yearly profits.

Spurred on by the knowledge that today's appearance will be their last 1923 game, the Trojans of the University of Southern California will take the field at the Collseum this afternoon at 2:30 o'clock, bound on cleaning up on the University of Idaho squad from Moscow. Coach Elmer Henderson has instructed Capt. Although the U.S.C. team is a favorite to cop the battle, many fans claim the Vandais will emerge a victorious, simply because the Trojans have no very strong defense and Arisona both scored clean touchdowns on the locals via this route and the U.S.C. team was powerless to stop them. OXY AND SAGEHENS CLASH

Rival Conference Teams in Traditional Grudge Football Game at Pomona Today

Culminating a quarter of a century of grid rivalry, Pomona and Occidental football elevens, clash this afternoon at 2:30 o'clock at Claremont in a contest which promises to bring out all the spectacular ability both teams possess. Added to this traditional grudge feeling is the knowledge that the outcome of the battle will mean the winning or losing of the 1923 conference championship, and, needless to say the Sagehens and Tigers will not spend much time getting acquainted.

There is little to chose between.

the two teams. Occidental, with a team of seasoned veterans, was a 5-to-1 favorite for the league championship at the start of the year, but several things have transpired to seriously alter the complexion of the entire affair. Pomona, dubbed the weak sister of the loop because of the presence of only three regulars from last year's championship aggregation, started slowly, but has finished with a world of speed, a 20-to-3 victory over Whittier, conquerors of Caltech, putting them practically on a par with the Tigers. Eugene Nixon, Pomona ceach, has gone quietly ahead all season and the result is that the final conference clash of the year finds him well prepared, which happens to be a habit with the Claremont mentor.

RTS NINETEENTH TERM ENGINEERS

With all their supportess praying for a tie game between Pomona and Oxy at Claremont, the Caltech football warriors go into action against the Southern Branch cleven at Pasadena today. A tie between the Sagehons and Tigers will give the Engineers the 1923 title, provided the Cubs suffer themselves to be roundly trounced, which is just what is likely to take place.

Whittier and Redlands, with everything to gain and nothing to lose, will be at it hammer and tongs at Redlands this afternoon, and nobody but the two immediate institutions cares how the game comes out, for it has no bearing on the conference standings, other than to possibly shove the Buildogs a notch further down the ladder.

Capt. Holly Moyse and his Engineers started the season with two objects in view, namely, most of the feathers off the Pomona Sagehen and the hide of the Oxy Tiger. Having turned this trick the Pasadena eleven is happy, but nevertheless the proteges of Fox Stanton can't help kicking themselves for losing that first game to Whittier. It looks as if the best the Engineers can get out of the race is a tie with either Pomona or Oxy as these two elevens have played only one tie game in twenty-five years.

There are many kinds of landslides, but the greatest of them is the slide to base. What must have been the surprise of the baseball player who first slid to base! Rob ert Addy, in 1866, is first credited with the feat; literally the feet, for the old-fashioned way of sliding was feet first. Then, during the regime of Harry Wright with the

was feet first. Then, during the regime of Harry Wright with the Red Stockings, he saw a man one day, named Mose Chandler, get to base head foremost, and he made his men practice the stunt. It's an acrobatic thing, this silding to base, and it saves the day for many a man. The long body silde and the hook silde require a snapping of the body which makes or breaks a man. Ty Cobb and Hans Wagner and Tris Speaker developed the silde to perfection, and the exciting point in a game is to see a man get his base within a hair line of the ball, yet safe. With his feet on base and his body supple enough to elude the ball in hand, what has a base runner to fear from the most astute baseman? But sliding is not a haphazard thing, where the feet are implements to scare the baseman with. One must think with one's feet. It's a far cry from Robert Addy, the inventor of the slide, to Heine Broh, for instance, diving to safety on his own base in a world series with the fans right on their toes. Rasaball history records, along with the first silde, the first bunt and other milestones in baseball progress, the first phenomenal hit. Hugh Fullerton has told the story well.

The barkeeper took the spheroid gently in his hand as though it were a homing pigeon, and gave it a place of honor in front of his glassware. He beamed as he saw the baseball fans lined up by the rail, arguing—over their glasses—how the bale must have behaved all the way from Lange's bat to the saloon. They even took tape measures and measured off the distance. For a record hit like that didn't happen every day. And it can't happen any more, now that prohibition is here.

NO SLOWING DOWN IN WORK AT FOX STUDIO

To visit the Fox studie you would lever guess that there is anything like a slump in picture producion. Many new names are being constantly added to the roster of actors, and new stories are con-stantly being purchased. Recent-ly bought are "Loyalties," "The Fool" and "The Man from Home," which are to be made into pic-

which are to be made into pictures.

New productions include a picture starring Jack Gilbert, written
by the Hattons, and called "Just
Off Broadway," which Edward
Mortimer is directing. It is quite
possible, also, that Gilbert may
play the lead in "The Man From
Home."

Home."

Gilbert's new leading woman in this picture is Marian Nixon, a beautiful young actress who formerly was the dancing partner of Paisley Noon in vaudeville. She started work as an extra girl on the Fox lot about six months ago, but proved so clever that she was given a long-term contract for leads.

In the cast also is Telley Clark.

Bryan Foy Directing

With Harry Tigh and Ned
Sparks, well-known vaudevillians,
costarring, and with Bryan Foy,
son of the famous Eddie, directing,
the first of the new Estee comedies
for release through the United Producers and Distributors was started this week.

The filming is being done at
Universal City, and the completed
two-reeler will be of the slapstick
variety. Several other short subject units will be started for the
U.P.D., and shortly after Dacember I there will be at least five
other companies, at work making
full-length features.

COTTON CROP TURNS TO GOLD

powers sufficient to lift the veil of pessimism.

In the cotton belt as a whole, the last ginnings report indicated that little cotton is left, and serious doubts are expressed in the trade if the final ginnings will show an amount even close to the last estimate of 10,248,000 bales. Predictions are current that the present upward movement in price will not be headed this side of 40 cents a pound, although the increasing reluctance of the mills to purchase at the existing level minimizes the accuracy of this grophecy.

Much has been done to further trade relations between Southern California and the Hawaiian Islands by the annual excursion of the Chamber of Commerce, according to information received yesterday by the local organization. The steamship City of Los Angeles will dock next Monday morning bearing with her the excursionists who have been spreading the measage of Los Angeles through the mid-Pacific islands. A number of connections are said to have been made which insure a greater trade between Los Angeles and Honolulu during the next year.

One direct result of this year's trip will be a return visit to Los Angeles and Southern California by representatives of the Island chambers of commerce. Tentative arrangements for this excursion have been made and it is thought that 200 islanders will be here next

DAILY TRADE TALK

Dun's Reports Los Angeles' Business Pulse Strong and

Morgan, Livermore & Co., says hat at no time since last spring ave underlying conditions in merica been unsound. There is cerns who keep their trucks mov-

servers say, and no such depression is probable in the near future. Money is conspicuously easy for this season of the year.

On the other hand there is little forward buying and both wholes alers and retailers are playing safe, now that their holiday resources and retailers are playing roads for pleasure yehicles on the safe, now that their holiday resources and on all sides there is recognition of the uncertainty which surrounds the future; the future in this case being next year, with its political possibilities, its foreign complications, and in some sections an overexpansion of realestate activity. Briefly summarized, business is apparently in a healthy state of preparedness; ready to take advantage of good times if they come, or not to be squeezed, if they don't.

Prospects for the rempining weeks of the year are for an excellent rate of production and a wide distribution of goods. Labor is well employed in most sections; the physical volume of output is large; freight-car loadings continue to top 1,000,000 a week; commodity prices on the whole are stable, and the banking and credit structure is thoroughly sound.

ADVANCE IS RESUMED IN COTTON OPTIONS

NEW YORK, Nov. 23. — The cotton list rallied sharply after early irregularity today. Profittaking caused a set-back of moderate proportions in the first hour or two of trading, but trade and Liverpool buying steadied the market and prices went upward rapidly in the early afternoon to close 25 to 46 points net higher, but a few points under the day's best. Morning selling was traced to recent bulls, the South and professional operators, while buying throughout the session came mainly from domestic and foreign trade houses. Commission houses traded on both sides of the market.

Spot cotton was steady, 30 points advance, 35.90 middling, upland. Buying Sweet Potatoes, curing them and marketing them is the prime purpose of the California Sweet Potato Corporation.

Through its exclusive control of the patented Wells Curing Process, this company buys the "Nancy Hall" Yams, cures them, packs and I them on the cars at its plant at a cost of only 1 3-4 cents a pound. These Sweet Potatoes sell from 5 to 9 cents a pound.

The four unit curing plant now in operation handles 200 carloads a season, netting a profit of \$150,000.

The demand for these cured Sweet Potatoes on the Pacific Coast is in excess of 1000 cars a year.

To finance the erection of added units for the curing of Sweet Potatoes and to finance the growers so that an adequate supply of "Nancy Hall" Yams may be assured, you are offered the opportunity NOW to invest in the Capital Stock of this company.

The California Sweet Potato Corporation, because of its control of the Wells Curing Process is virtually in control of the Sweet Potato Industry on the Coast.

The culls, which amount to 40 per-cent of the crop, are sent to the distiller and converted into medicinal and commercial alcohol. This in itself will show a profit of \$96,000 annually.

Even the residue after distillation is sold—sold for stock feed at \$30 a ton.

With every ounce of every potato being turned into money - this opportunity offers far greater possibilities for stupendous earnings than almost any other investment on the market.

The affairs of the business are in the hands of experienced men. It is a going concern that has outgrown its capitalization—hence Your Opportunity.

Send for the book - "Sweet Potatoes - Another - California Industry." - It tells the story in detail-it's FREE.

DAILY MARKET LETTER OF THE NEW YORK COMMERCIAL

NEW YORK, Nov. 23.—There to appear and a livelier situation a good demand for new crop may be expected all around. dried peaches, reported on spot and sales are running far ahead of last year's figures in some quar-ters of the market, Practically peeled are meeting with unprece-dented demand.

DRIED PEACHES

Dried fruit operators attribute the increased buying of dried peaches to the high prices of No. 10 pie-peaches, canned, and ex-pect that the outlet for the dried peaches will continue to increase as the scarcity of the canned pro-duct grows. The higher grades of dried peaches are selling best this season.

DRIED FIGS California dried black figs are wanted in a small way on spot. Distributors bought only in limited quantities this season but the demand has been a little better than they had anticipated and they are new seeking small additional quantities.

ALMERIAS Almeria grapes met with good demand today with the sale of 44,000 barrels, ex-S. S. Roman Star. The condition of the cargo as a whole was good. Prices ranged: Extra fancy \$9.50@\$14.95; Fancy \$7.25@\$9; extra choice \$6.25@\$7; choice \$4.75@\$6.25.

Investigation to be Made to Determine Whether Hold of Wrecked Craft Carried Liquor

United States customs officials left Los Angeles Harbor last night

And now that the secret is explained and the doubt cleared up. Democrats here and elsewhere can settle down again in anticipation of some form of campaign announcement within "a reasonable".

The fact that Mr. McAdoo, in confirming his intention of speaking before the luncheon club members December 12 emphasized like-wise his intention of supeaking in the succession of the rum-runners operating in southern waters was a question which Federal and county officers were expecting to answer with a complete examination of its cargo.

Capt. George Felando, command-water in the death of the beach. First attempts to the organized was not floated until later.

were expecting to answer with a complete examination of its carge of Capt. George Felando, command ling the St. Andrew, denied that the carge included any liquor and stated that the boat was bound for San Pedro with ten tons of fish caught off the Lower California coast.

Despite this statement, however, Capt. Byers of the Coast Guard cutter Vaugh. decided to tow the boat into port and order the carge discharged to learn whether any liquor is concealed in the hold. It was pointed out by the officers were also investigating the cutter that the St. Andrew was steaming into port fifteen miles off the cutter that the St. Andrew was steaming into port fifteen miles of the course at the time she grounded. In reply to this, Capt. Felando stated that his compas was out of order.

For the kitchen bouquet tie in a bundle one smail stalk of celery, three branches of parsley, one green onion, a bay leaf, two whole cloves, and a clove of garlic. This is also called a bouquet garni. We have the best result in making pumpkin pie by baking the pieces of pumpkin and scraping the pulp from the baked shells.

For the Russian dressing mix one finely chopped hard-boiled egg with half a cup of mayonnaise, two tablespoons of tomato catsup, two teaspoons of finely chopped parsley, and a little finely chopped onion or garlic. When well mixed fold in another half a cup of mayonnaise and serve.

Usually, I recommend 1200 calories a day for a reducing diet, but if you take the two liquid days, you probably could go on 1300 or 1400 calories daily and still reduce.

It is not uncommon to look a little haggard and pale while reducing. I recommend the application of a tiny bit of natural looking rouge in these instances so the friends won't discourage. This haggard look disappears after the weight is normal and the maintenance diet resumed.

No, wenereal diseases do not always prevent pregnancy, but they are very apt to, or to produce repeated abortions. I advise adopting children when there are none in the family if it is possible: the younger the better. Your telephone directory will give you the name of the orphanages.

phone directory will give you the name of the orphanages.

Mrs. Q.: The reason lemon juice is superior to vinegar is because vinegar is a free acid—a decomposition product of alcohol—and is an irritant; while lemon juice is a combined acid built up in Nature's laboratory, is high in antiscorbutic and antineuritic vitamins, and is a good food. Lemon juice may be used freely in children's djets, while vinegar should not be. In fact, lemon juice would be better than vinegar for adults also.

The foods containing tannic acid in such amounts as to be objectionable, are tea, coffee, strong cocoa and chocolate. Oxalic acid is a characteristic acid of rhubarhand sorrel Do not use rhubarhleaves for greens because they have been known to cause poisoning due to the amount of oxalic acid. There is a small amount of it in other greens, but not sufficient to be objectionable.

SILENT PERIOD FOR NEWCOMER

KHJ Halts Quarter Hour for KLX Debut

"Trio Intime" is Presented

Pupil of De Reszke Charms With Voice

BY K. G. ORMISTON

The broadcasting station of the Oakland Tribune, an old friend but with a new and more powerful voice, was welcomed on the air last night throughout Radioland. Locally, the two big stations were silent for fifteen minutes shortly after 8 o'clock, giving fans a clear air for the reception of Ki.X.

Operating on a wave-length of 509 meters, the new 500-watt station was received with excellent audibility and modulation. Tonight kHJ and kFI will again remain silent from 8:05 to 8:30 p.m., while the presidents of Stanford and California universities are speaking over KLX.

A new musical organization was presented to the radio audience resterday afternoon on the matineer program given in The Times studio. The "Trio Intime," composed of Col Cohen, violinist. Frank J. Steiner, 'cello, and Marjorie K. Chapin, pianisk in their second public appearance, presented a program of chamber music marked with rare musicianship, Mesers Cohen and Steiner are well-known artists who have appeared often over KHJ, broadcasting unusual artistry.

PUPIL OF DE RESZKE

Marjorie K. Chapin, pianiste of the trio, has but lately come to Los Angeles from Honolulu, and is now teaching here. This organization aims to present their recitals with distinctive originality recitals with distinctive originality restance.

ORGAN RECITAL

Among the offerings of the orchestra was an excerpt from Deliber's ballet "Naila," rendered in pleasing and graphic fashion, visualizing the dancers. Beethoveris "Minuet," one of the most delight full of the composer's works, was aplayed with delicate detail and harmony. As a lighter number the "Parade of the Wooden Soldiers," with its rhythmical yet lilting quality, was splendidy interpreted.

Leon played "Ave Maria." by Schubert, as a violin solo, with a tone and technique which made the number one of charm and appeal.

Fred M. Mitchell, monologist, saw the throught forth many radio laughs.

The evening program featured Mile. Ada Androva, dramatic soprano. A pupil of Jean De Reszke of Paris, Mile. Androva has sung with the Milan and Paris Opera companies and in concert throughout the world. The beauty of her colorful voke of fine tonal qualities and intense dramatic ability was broadcast with a striking personality, constituting an unusual treat for Radioland.

Hyde, singing "Calling Me," "Pride of My Heart" and "Where Irish Skies are Smiling." His rich, full voice has the qualities which make it well fitted to radio broadcast and went out with smooth. Clear notes without any distortion.

Dick Kennedy, pupil of Syl Prior, played his accordion in an entertaining manner, and George Chandler of Howard & Smith gave his weekly talk on "Rose Culture"

Master Richard Headrick of the silver screen, and also famed for his aquatic feats, handled the situation when the children's program opened, pattering away with Uncle John in his highly amusing manner, relating tales of wondrous adventures. At 7 o'clock the remote-control line to the First Methodist Episcopal Church was brought into use and Arthur Blakeley's organ recital was broadcast. His five numbered were rendered with his usual masterly style.

CHRISTIAN SCIENCE LECTURES Two lectures on Christian Science will be given here next week by Charles I. Ohrensein of Syracuse, N. Y., member of the board of lectureship of the mother church.
